Water Management

NGALIYA WORKS WITH INDUSTRY LEADERS TO DEVELOP STRATEGIES AND PROVIDE SOLUTIONS TO ALL ASPECTS OF WATER USE, FROM WATER SUPPLY TO DEWATERING.

Filtration.

CAPABILITIES

Ngaliya will work through conceptual ideas, design ratification, hydraulic engineering to the supply of equipment, project management and transition to implementation.

We will draw on over 20 years' experience working with Coal producers, Councils and Industry listening to our clients on a consultative level to develop ideas and methods, risk assessments, construction methodology and schedules. Identifying fit for purpose materials and resources required to deliver successful projects. Accurate budget estimates with high level functional specifications and scope of work for business case approval.

Ngaliya will provide more refined design and specification in conjunction with client collaboration and tender documentation development, specification writing, drawings and scope of works.

BACKGROUND

Ngaliya is a leading specialist services company with 30 years' of experience in Hydro Technology within the Queensland Coal mining.

Our team has built a record of consistent success in the delivery of challenging projects throughout the Bowen Basin safely, on time and to a high-quality standard.

The team at Ngaliya has delivered positive outcomes for clients on construction and fabrication projects up to \$5 million.

The company's potential growth has brought together a capable and diverse team as it has continued to build the range of services it offers.

Fire systems.

Bore Pumps for Goaf and dewatering and water supply.

TESTIMONIALS

As a specialist construction firm in the mining service industry, we offer a full suite of services from design, manufacture, build, and installation. Our proven industry experience influences Ngaliya's delivery of practical, sustainable, and innovative client solutions.

Take a look at what a few of our clients have to say.

"Ngaliya's strengths are within their ability to deliver on compliance, safety, execution and governance with the efficiency of a local vendor. They understand the challenges involved in a regulated environment and deliver on commitments with absolute transparency."

BEN WALL

BHP - Project Manager

"The guys at Ngaliya are great to work with. They just get the job done."

BRETT BYCROFT

BMA Broadmeadow Mine - Engineering

"We've used the Ngaliya team on a couple of projects and highly recommend them."

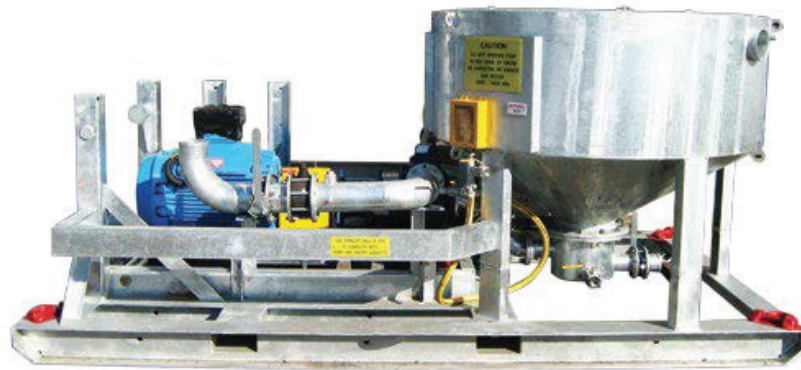

DANIEL HOOKHAM

Anglo American Coal

Key Team

Denaë Diamond

DIRECTOR

Roles and Responsibilities:

As Head of Indigenous Engagement, Denaë leads Ngaliya's efforts to build strong relationships with Indigenous communities and support meaningful, community-led projects.

Key Accountabilities:

Community Engagement - Foster partnerships with Indigenous communities and identify areas where Ngaliya can support.

Project Planning - Help design and deliver community-focused initiatives.

Promotion - Share and promote Ngaliya's impact both onsite and within the wider community.

Tara Fahey

DIRECTOR

Roles and Responsibilities:

Tara plays a key role in shaping Ngaliya's brand and community presence. She leads event planning, marketing initiatives, and manages social media to ensure clear and consistent communication.

Key Accountabilities:

Social Media - Manage Ngaliya's online presence to reflect our values and engage our audience.

Event Planning - Coordinate events that strengthen client and community relationships.

Marketing - Implement activities that promote the Ngaliya brand and support business growth.

Dylan Fahey

CHIEF EXECUTIVE OFFICER (CEO)

Roles and Responsibilities:

The CEO is responsible for driving the overall growth and development of the business, providing strong leadership to the team, and ensuring that best practices are consistently implemented across all areas. The role also focuses on maintaining profitability and positioning Ngaliya as a trusted and high-performing organisation.

Key Accountabilities:

Team Leadership - Ensure the team is well-supported, trained, and equipped to perform their roles effectively.

Client Experience - Maintain strong relationships with clients by delivering high-quality outcomes that encourage repeat business and referrals.

Ravi Sharma

CHIEF FINANCIAL OFFICER (CFO)

Roles and Responsibilities:

As Ngaliya's CFO, Ravi is responsible for leading all financial operations, including forecasting, project finance management, and cash flow oversight. He brings extensive experience and professionalism to the role, ensuring accurate financial reporting and the implementation of effective financial strategies that support the company's growth and stability.

Key Accountabilities:

Financial Oversight - Manage Ngaliya's financial operations to ensure the business meets its commitments, maintains healthy cash flow, and remains profitable.

Ben Stevens

CONSTRUCTION MANAGER

Roles and Responsibilities:

With extensive experience in the construction and mining industries, Ben leads Ngaliya's operational delivery across projects. He is responsible for driving safety, maintaining high-quality standards, and ensuring strong financial performance across all construction activities.

Key Accountabilities:

Team Leadership - Ensure the team is well-trained, properly equipped, and operating in a safe, productive environment.

Client Relationships - Maintain strong client satisfaction by delivering quality work and building long-term partnerships.

Mark Bright

PROJECT ENGINEER

Roles and Responsibilities:

With over 20 years of experience in mine site water management, Mark brings deep technical expertise to the development and delivery of effective water management solutions. He plays a key role in the planning, design, and execution of projects, ensuring they meet both client needs and operational standards.

Key Accountabilities:

Design & Documentation - Lead projects from concept design through to detailed documentation and delivery.

Project Delivery - Oversee project execution through strategic planning and hands-on coordination with field teams to ensure high-quality, timely installations.
